Fino-Liquid Beads

Product Description

FinoLiquid Beads is a proprietary blend of highly active copolymer beads in an environmentally friendly carrier fluid. It is used as drilling fluid lubricant where ease of addition is needed and prevents the possibility of spillage of dry beads on the rig floor as an added safety benefit.

Typical Physical Properties

Parameter	Specification
Appearance	Slightly viscous suspension
Color	Light brown
Specific gravity	0.98 g/cc
Product size	100% passing 80 mesh
1% pH, 90/10 HOH:IPA	5.9
Bead size	150 – 1,000 microns

Benefits

- Reduces torque and drag associated with drilling
- Eliminates spillage of dry beads
- Easily added to any mud system
- Carrier fluid aids in lubrication

Packaging

FinoLiquid Beads is available in 330 gallon totes.

Storage

Store in original tightly closed container. Store away from incompatible materials

Availability

Houston, TX-USA and Midland, TX-USA.
